Dr. C. C. Little
Jackson Laboratory
Bar Harbor, Me.

Dear Dr. Little:

I wrote you earlier this year that I hoped that our vacation trip would bring us to your vicinity about this time. Our plans have been changed slightly, and we are leaving here only today. However, I hope that we will still be able to make that visit, although two or three weeks later than planned. While I will be very pleased to find you available at the time we arrive, please do not alter your plans or make any arrangements for us (re lodging) as our plans are still necessarily indefinite.

Yours sincerely,

Joshua Lederberg
